Is the Prepaid Electricity Option right for me?

If it is easier for you to make weekly or biweekly payments for electricity usage rather than one larger payment each month, then this option will work for you. You can pay how much you want - \$10 a day, \$50 a week, or \$1,000 – and when you want. It might be when you get your next paycheck, when your Social Security check arrives, or whenever you can afford to add to your credit balance.

Will I be notified if my balance is low?

Members who enroll in this option maintain a prepaid balance in their account from which their daily usage is subtracted. When your balance gets low, an alert will be sent via text message or email. These alerts start arriving when your balance gets below \$20.00.

How do I add money to my account?

There are several ways to add money to your prepaid balance:

- Make cash or check payments at our Newton office between 7:00 a.m. and 5:00 p.m. Monday – Thursday.
- Put a check in the drop box at our office, **and your account will be credited on the next business day.**
- Pay on line at www.norriselectric.com with a credit or debit card or an electronic check.
- Call us at (877) 783-8765 between 7:00 a.m. and 5:00 p.m. Monday – Thursday to make a credit or debit card payment or electronic check.
- Set up payments through your current online banking system.
- Mail a check to Norris Electric Cooperative, 8543 N. St. Hwy. 130, Newton, IL 62448

Don't use online banking or mailed check options if your prepaid balance is very low because it may take several days to credit your account and you risk disconnection if your balance falls below zero.
